Court House

Judge Holcomb Ill. Friends of Judge A. T. Holcomb will regret to learn that he is quite ill at his home on Ninth street where he has been confined for several days. His condition was reported a bit improved today.

On account of Judge Holcomb's sickness the hearing of the case of the Scioto Oil company against the Scioto County Development company, scheduled for Friday, has been postponed indefinitely.

Seeks Duplicate Certificate The Royal Savings & Loan company and William S. Brown, are making defendants in an action brought by Sarah E. Brown, suing through Attorneys Blair and Blair, in Common Pleas court today.

In her petition, plaintiff says that on Jan. 1, 1923, the loan company issued to her a certificate of deposit in the sum of \$1000, and then com-

plains that the defendant, William Brown, her son, on Oct. 10th last, while she claims she was physically and mentally sick, and unable to know, understand or comprehend what she was doing, procured her to endorse the certificate and deliver it to him.

Plaintiff further recites that she is unable to obtain possession of the certificate which she seeks to have cancelled and asks the court to require the loan company to issue to her a duplicate certificate.

A temporary injunction was issued by Judge Gilliam in the absence of Judge Thomas, restraining Brown from collecting or disposing of the certificate and enjoining the loan company from paying it until the case can be heard on its merits.

Commissioner Shively Downcast County Commissioners in session at the court house today allowed the semi-monthly schedule and transacted other formal business during the day, although Orville Shively, the Scioto township representative on the board, was a bit downcast over the downfall of the McDermott diamond heaves before the Hays Motor forces yesterday.

Shively was compelled to take a lot of good natured kidding over the defeat of the Rush township brigade which was easily subdued and licked to a frazzle by the River city gang.

Hearing Special Decket The suit of Frank Sernore against Matt Holzman and others,

for specific performance of contract, was heard by Judge Will P. Stephenson, of West Union, when he mounted the Common Pleas court bench Monday. The Adams county jurist is here for the entire week during which he will hear a number of cases on the special docket.

Seymour brought the suit on an agreement in connection with a deal under which he claims that the defendant was to do him certain lots in the Holzman addition, Mahab Road, in return for grading work which he did on the premises last winter. Attorneys Blair and Blair represent plaintiff and Attorney B. P. Kimble appeared for Holzman.

Galloway Admits Guilt; Fined Caney Galloway, 25, Carey's Run young man, arrested last Saturday night by county officers for driving while intoxicated, following a collision with another machine on the Towpath road, near the Scioto river bridge, pleaded guilt when brought before Squire George S. Morgan today. Galloway was fined \$25 and costs which he arranged to pay.

The machines which figured in the crash were only slightly damaged.

Marriage Licenses Edward Beggs, 24, road contractor, Waterloo, and Darline Deauder, 22, Waterloo, Rev. S. Lindenmeyer.

Ernest P. Ankrom, 28, check clerk, Huntington and Gertha M. Wright, 25, housekeeper, Huntington.

Curtis Brown, 21, farmer, Greenup county, Ky., and Eva Clay, 18, city.

Mr. Kline Home A. Kline, of the A. Kline Co., has returned from a ten days' buying trip to New York.

Impressive Exercises Mark Cornerstone Laying

With fitting ceremonies the cornerstone of the new Jewish Temple, going up at Seventh and Gay streets, was laid Sunday morning at 10 o'clock and was in charge of Rabbi Binstock, and Felsbaum. Many members attended and, following the exercises, they adjourned to the Elks' Club, where a congregation dinner was enjoyed.

At the conclusion of the dinner Arnold Schapiro spoke in behalf of the younger members of the congregation. Mrs. Felix Haas for the women and Samuel Horvath for the older members. Rabbi Binstock and Felsbaum also made inspiring talks and the get-together meeting was the biggest kind of a success.

Various reports made showed the congregation to be in fine shape. The role of toastmaster was enacted by Max Lehman and the Committee on Arrangements included Pete Warsaw, Dan Labold and Henry Atlas.

The large use in the cornerstone laying contained names of all members and officers of the congregation. A vote of thanks was extended to Custodian Francis Mack, of the Elks' Club, for the beautiful dinner which was faultlessly served to 100 guests.

When the ceremony was over, a few seconds later, in his dining machine he kept looking at the mixup of the three machines long enough to crash into another Buick. The Adams machine was badly damaged. The driver of the other Buick drove away before traffic officers could get his name.

When L. L. Adams of 405 Ohio avenue, New Boston, came along a few seconds later, in his Buick machine he kept looking at the mixup of the three machines long enough to crash into another Buick. The Adams machine was badly damaged. The driver of the other Buick drove away before traffic officers could get his name.

Five Machines Frame In Accidents

Five automobiles figured in a collision at Rhodes avenue and Plum street East Portsmouth about eleven o'clock Sunday morning within a few minutes.

The second collision was a result of the first one in which three cars figured. John Hasehauer 3757 Rhodes avenue, New Boston, Vernon Snowden of Kentucky who

rooms at 3122 Rhodes avenue and W. Martin, driver of a Nash machine, were in the first wreck. According to traffic officers' Snowden's machine bounced off the Martin car and crashed into the Hasenauer machine. Paul Hasenauer, son of the owner of the car, was slightly injured. Mr. Hasenauer's car was badly damaged.

When L. L. Adams of 405 Ohio avenue, New Boston, came along a few seconds later, in his Buick machine he kept looking at the mixup of the three machines long enough to crash into another Buick. Galilean Will Lecture At First Christian Tomorrow

Judging from the rapidity with which the tickets are selling for the lecture to be given by Stephen A. Haboush, a native Galilean, at the First Christian church, tomorrow, Tuesday evening at 8 o'clock, the Rev. Haboush, who is an ordained minister, is a unit in declaring him to be one of the most instructive and interesting speakers on the platform today. Haboush, at times, always regarded as one of the finest pieces of literature ever penned, Mr. Haboush made it stand out even more prominently. For five years he tendered his father's flock of eighty sheep and twelve goats, leading them forth to pasture and water six days in every week — living with his

sheep, defending them against attacks by wild beasts, killing poisonous reptiles, ministering to his sheep in case of mishap, living out in the great outdoors, learning kindness, growing courageous, Mr. Haboush came to America when a boy of only fifteen and located in the west, where he became a farm hand that he might go to school and later, in college. He is a graduate of several colleges and universities, and several years ago returned to his native land and secured four reels of motion pictures, which cost him in the neighborhood of \$25,000. These pictures he will show at the church tomorrow night. Mr. and Mrs. Haboush will be dressed in native costumes, while he has promised to give the call to his sheep. In addition they will have many curious and will present each child attending with a sheet placed from the sheep of the son of Galilee. The lecture will start promptly at 8 o'clock, but those desiring good seats are advised to come early. The admission will be 35c and 25c. The lecture is given under the auspices of the Woman's Missionary Society.

Sensational Address Made By Prominent Jew

NEW YORK, October 15.—(By the Associated Press).—A sensational address by Israel Zangwill, author and publicist, who arrived recently from Great Britain, was being discussed by delegates at the American-Jewish congress resumed its sessions today.

Speaking in Carnegie Hall last night he declared Europe was a hot bed of strife and asserted the Jews must forego their political hopes to Palestine, "rather than throw a match into such a powder factory as the globe has become."

He declared Palestine had been "politically mismanaged" by England and

that the Balfour declaration which was intended to give the Jews a home land had degenerated into a "scrap of white paper."

American Jews, he said, had a chance to save America from infidelity to her mission of salvation for Europe.

He deplored the existence of the Ku Klux Klan in America, but declared it "has not yet arrived at full European blood thirstiness."

"Perhaps it is the role of millions of Jews represented here to help America keep American," he added.

The tailored mode as interpreted by such well known designers as Jenny Paton, Alice Bernard, etc. is a very interesting thing. Of course the Parisian tailored mode sponsors, besides the draped and wrap-around model, the straight-line, devoid of belt, the tailored cloth model in the street frock which shows the circular flounced skirt, the garment which shows a bloused waist with over-skirt treatments of diagonal hem-line and the tailored mode which shows the coat effect.

But, taking the tailored mode as interpreted in dresses there are almost as many variations of the straight silhouette as there are garments. That, of course, is a statement which holds exaggeration, yet there are any number of straight-line interpretations as varied, it seems, as any fancy could dictate. The cloths, however, are not so varied. Besides velvet, point twill is used almost exclusively or cloths closely akin to this fine twill, such as charmeuse, will cord and rep.

I spent Sunday reviewing several authoritative style magazines in regard to recent imports from Paris in the way of tailored modes and I find the fashion to be "style right" in the tailored models it is showing.

Is Spiritualism A Fake?
Can The Dead Communicate With The Living?

Are There Spirits?
Did You Ever See One?

Sir Arthur Conan Doyle, a very distinguished Englishman, says this life is merely the vestibule for the hereafter; that we take up life in the next world just where we leave it off here; that he is in constant communication with those who have passed on; and that their message is one

of hope and encouragement to mankind. Sir Arthur is honest in his beliefs; there are others who are not, who seek to profit from the tears of the bereaved. This great two reel picture shows up the fakery and the crooks who seek to commercialize Spiritualism.

What kind of pleasures have you chosen?

There are two kinds of pleasure: Some folks find a great deal of pleasure in buying dainty things to eat or wear, and in spending freely for various recreations. A reasonable amount of this kind of pleasure is worth while.

Others have chosen the "everlasting" pleasure. The pleasure of owning a roof over their heads; in educating their children; in preparing for emergencies, and in facing their old age without fear that they will be in want.

Those who have chosen the everlasting pleasure and are saving successfully with this strong Bank have chosen well.

PORTSMOUTH, OHIO

MAN HIT BY AUTO NEAR LUCASVILLE; DIES

Stepping backwards into the path of an automobile that attempted to drive around behind him, Thomas R. Harger, 76, farmer of the Nancy Chapel community between Back Run and Fallen Timber, northeast of Lucasville, was struck and almost instantly killed about one o'clock Sunday afternoon on Seloto Trail north of the Lucasville Fair Grounds by a machine driven by M. J. Houghton, of Charleston, W. Va. Mr. Harger was crushed through the chest, internal injuries resulting in death. His left leg was broken just below the knee.

The scene of the accident was about 200 yards north of the big concrete bridge just north of the barns at the Fair Grounds. F. M. McDaniel and son C. W. McDaniel, of near Clifford had been to Lucasville after a Sunday Sun-Times and were enroute home when they met Mr. Harger walking on the left hand side of the trail going north. He was enroute to the Garrett Marsh place near Clifford to work. Mr. Marsh is pumper at the N. & W. water tank at Clifford and he had Mr. Harger pulling beans for him during the past week.

Mr. McDaniel had his son stop their machine and he asked Mr. Harger to get into the car. Mr. Harger started across the road to the McDaniel machine and walked to a point about half the distance between the left side of the McDaniel car and the left hand edge of the road when C. W. McDaniel told him to look out for machines coming from behind. Mr. Harger turned and looked south or back of the McDaniel machine and when he saw a car coming he stepped backwards directly into the path of the machine instead of going forward to the McDaniel machine. According to Mr. McDaniel and son, had he stepped forward the machine would have passed behind him.

Body On Radiator.
The Houghton machine, a Hupmobile roadster, was not traveling over 35 miles an hour according to Mr. McDaniel, but at this speed Mr. Harger's body was carried over the radiator for about 40 feet, the machine traveling this far before it stopped. As the machine slowed down the body fell from the front of the car and the car passed over it although the wheels did not touch the body. The machine was two car lengths ahead of the body when it came to a dead stop according to Mr. McDaniel.

Mr. Houghton asked where the nearest doctor could be found and when told one could be obtained in Lucasville he went back for him. In the meantime C. W. McDaniel telephoned for Dr. D. C. Coleman from a farmhouse nearby and Dr. Coleman was on his way to the scene of the accident when Mr. Houghton reached the village.

Mr. Harger expired a few seconds after Dr. Coleman arrived at his side. The body was then removed to the Regg undertaker parlor in Lucasville and Coroner Virgil Fowler examined the body and found the bones badly crushed. It is thought that the broken bones punctured the lungs or other vital organs and caused internal hemorrhages.

Sheriff Harry Dunham was also notified and was soon on the scene conducting an investigation. After talking with witnesses he allowed Mr. Houghton to go with orders to report at the Sheriff's office in Portsmouth, Tuesday afternoon on his return from Columbus. Mr. Houghton is a concrete block manufacturer and had important business in Columbus last night and today. He was accompanied by Ernest Hollman, of Charleston. Mr. Houghton told Undertaker Regg to take care of the body and funeral arrangements and that all expenses would be paid by him.

Lived On Back Run

The accident victim had lived for many years in the Back Run and Fallen Timber communities where he was a farmer. He is survived by his widow, Mrs. Samantha Ruller, of near Lucasville, and four children, a married daughter in Maine, Michael, a retired army officer who was stationed in Texas but who is now in Mexico, Smiley at home and Ross who is in northern Ohio. Smiley is crippled with paralysis. The Ruller family in the vicinity of Milton and Stockdale are related through marriage. Prof. Clark Finkerton, of Columbus, formerly principal of Portsmouth high school, was a nephew of M. Harger.

LOVE ALWAYS FINDS A WAY; LAUGHS AT HANDICAPS
Courtship, Which Started In Vanceburg Jail, Ends When Couple Are Married In Cell
BRIDE INVOKES AID OF COURT TO HAVE KNOT TIED

Special To Times
VANCEBURG, Ky., Oct. 15.—Love always finds a way, even if it is in the drab confines of a county jail, this being forcibly demonstrated here Sunday when Tom Killgore, who is confined in the county jail for transporting whiskey, and Mary "Thurman," divorced wife of Sam Moore, were married Sunday afternoon about 5 o'clock in the jail.

The courtship took place through the prison bars for Tom had called to Mary and she had been noticed at the steel barred door of the jail talking to the prisoner, nearly every day, for several days past. Even separated by over twelve

feet of space and two steel doors Tom and Mary were able to get together so well that he won ten o'clock Miss Thurman appeared before County Clerk Tammara and secured a marriage license. With Judge W. T. Stone she then proceeded to the jail where the wedding was solemnized.

At this point the course of true love did not run smoothly for jailer Geo. Sparks refused to permit the wedding. But Miss Thurman still persisted in her effort to wed the man of her choice. She next secured the services of Attorney Harvey Parker, Jr. and placed her case before Circuit Judge W. C. Halbert, who issued an order to Jailer Sparks to permit the woman to enter the jail and be married.

With this order and the marriage license she went once more to the county with Judge Stone to the jail and on seeing the injunction issued by Judge Halbert the jailer still refused to allow Killgore to come out, but admitted the woman to Killgore's cell and the couple were married. Franzo Gilman, one of the prisoners in the jail and Jailer Geo. Sparks were the witnesses who signed the marriage certificate.

State Has Scoring Machine
Evidently Coach Wilce has another fighting team at Ohio State. After apparently being hopelessly beaten in the first half State staged a wonderful comeback and tied Colgate, which admittedly has one of the strongest teams in the East. And the game demonstrated too, that Wilce does not have to depend on his regulars to hold their opponents in check as the second and third stringers Saturday made a fine showing when given the opportunity.

It was a wonderful game and offers another proof that State at least has another scoring machine this season. The forward pass is a deadly weapon with the Wilce coached eleven and it no doubt will be used many times Saturday when State and Michigan clash in Ann Arbor.

Stadium was erected last year. Four ticket booths were wrecked and houses a block away were rocked and damaged. Many families were routed from their beds and sent scurrying into the streets. Telephone lines in the vicinity were put out of commission. A small blaze started by the blast was extinguished by firemen before it could do much damage.

Police are searching for three men who were seen near the stadium entrance, and who made off in an automobile about 10 minutes before the explosion.

Sandsack a 100 gallon stiff was taken; 14 barrels of mash and 66 gallons of the finished product were destroyed. Near Bear Branch on the waters of East Fork 40 barrels of mash and 4 gallons of whiskey were destroyed. The still had been removed before the officers reached the scene.

The long drawn out controversy over equal rights in the Near East found America ranged against Great Britain. Even though the Royal Dutch Shell company was operating under grants from the Netherlands government, the British were behind much of the opposition to American interests. Similarly there are some chapters in the controversy over the extension of an American cable through Portuguese islands in the Atlantic which involved British diplomatic influence in Portugal.

All these instances merely make the diplomatic side of the Washington government more than ever anxious to get a better understanding with the British foreign office and the hint thrown out by Mr. Lloyd George doesn't need any more official cognizance than it already has. On many an occasion in world affairs, American and British diplomacy have stood side by side and the only reason they have not done so more often has been a divergence of interests—the American government preferring to remain aloof from certain problems in which Great Britain and other European powers had a more direct interest. If Mr. Lloyd George means a pooling of physical strength he, of course, has in mind only a great emergency such as the late war, when the British and American navies worked as a single unit in European waters. But even in ordinary times the British form of government permits the sending of a fleet for a naval demonstration, which can be followed up instantly by landing of Marines and troops, while authority for every such action must be sought in the case of the United States from both houses of Congress, circumstances which inhibits America from making a threat that is not likely to be sanctioned by American opinion. Most of the questions that lead to war in Europe are much better known to the British public than to America. What Mr. Lloyd George has suggested is an objective to which few in the Washington government would take exception provided British and American diplomacy had common interests in all parts of the world. But the value of the suggestion has not been lost and probably will often be referred to in diplomatic conversations in the future as it has in the past, particularly when Great Britain and the United States have seemed to be opposing each other in matters on which unity of action would be better for both.

Jobs are scarce for the Physically Run-Down

THE DOOR of opportunity flings wide its portals only to the man who is up and doing—who is alert with pen and pencil—with rich, red blood surging through his veins. Mountain size obstacles dwindle to ant hills and ambitions become accomplishments to these sort of men.

SSS. Makes You Feel Like Yourself Again

Ugh! Get Rid Of That Horrid Body Odor!

It's so offensive and so unnecessary! The worst of it is a woman is usually unconscious of it and of the humiliation she would feel if she only knew it. And it's so easy to be thoughtful and to turn one's self into a feeling of false security. That's why tanol is now put up in a convenient one ounce package. Tanol, you know, is the new deodorant which is a delight and a joy to the woman who cares and who really wants to protect herself and others against these inevitable odors that are so offensive and that can't be disguised in those who dress in today's fashions. The tanol is ready for you at Elmer & Streich's toilet goods counter nowhere else. — Advertisement.

Get Workouts

NEW YORK, Oct. 15.—Today was one of comparative rest for Zev and Papyrus, rival American and British thoroughbreds, in their preparation for the \$100,000 International Classic next Saturday at Belmont Park.

Both were out on the tracks for light exercises, but following their gallops of yesterday, did not attempt real time tests. Zev went the full match race distance, a mile and a half, yesterday, but proved somewhat disappointing to observers who declared the colt seemed "all out" at the finish. The Rancocas star was clocked in 2:37 3/5, as compared with Papyrus time of 2:38 3/5 when the derby winner, under stout restraint, went the full distance Saturday.

high state of indignation by a super-patriot who stood in the upper part of the "Star Spangled Banner" for two hours without a respite, waving a small American flag the while.

The weather was the worst of the series so far. The sky wore the gray of the pall of death.

The gates to the Polo Grounds were open three hours before game time, but there were only about three hundred persons in line waiting to enter. The rain had ceased and out of the north came a cold damp wind that chilled the spectators to the marrow. Where yesterday the crowd basked in a summer-like weather, they shivered and shook in the cold October day that constantly threatened rain.

Manager McGraw entered the field shortly before game time looking as though he had burned the midnight oil thinking up something to save the Yankee youngsters and something to start his own. He had elected Arthur Neff, his best pitcher and winner of one game in the series, to pitch today.

Tuesday—In what year, day and date and hour did the Indian territory which is known as the Cherokee Strip, open up for settlement which borders Kansas on the south? Also the length and width? A READER (Oklahoma), in the west south central group, originally set apart for Indian reservations, and formerly known as Indian Territory, was settled in 1889 and entered the Union on November 16, 1907. It is bounded on the north by Kansas, on the east by Arkansas and Missouri, on the south by Texas, and on the west by Texas, a small panhandle strip to the northwest also touching New Mexico. It was the home of those Indian tribes—Cherokees, Creeks, Choctaws, Chickasaws and Seminoles whose descendants remain as a large part of the present population numbering 119,225 in 1920, holding 19,711,800 acres with a valuation of \$240,400,333 and an income of \$30,000,000. It is only five years since oil was discovered in Oklahoma, yet it has risen to the first rank as a producer. Apart from the romance of the Indian days and the "cowboy" Oklahoma went into history as the theatre of the most exciting "Soviet" war of new lands ever staged in the United States, when more than 25 years ago the federal government after taking large areas from the Indians by treaty, threw them open for settlement and thousands camped on the "unimproved" line for weeks, rushing across the border when the moment came for admission. The settlement and development were remarkably rapid, until now the state has all that apparatus to modern life. The area of Oklahoma is 70,057 square miles.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and kills the germ.

Creomulsion contains, in addition to creosote, certain healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if it does not cure you. Creomulsion is a safe, reliable, and effective remedy of how long standing, is not relieved after taking according to directions. Ask your druggist. Youngstown Woman Reports 35 Lbs Gain

"Sick people make no mistake when they try Tanlac for it built me up thirty-five pounds in weight a year ago and I'm a perfectly well woman yet," said Mrs. William Slagle, 111 E. Wood St., Youngstown, Ohio.

"Before I took Tanlac I was so run down and thin my own friends hardly recognized me. An operation had left me in an awful condition and I couldn't seem to gain back my health. I weighed only eighty-five pounds, had no appetite, was nervous, had headache and dizzy spells and was so weak I could hardly stand up. Every meal tortured me with heartburn, sourness and palpitation."

"Tanlac built up my entire system and now I look the picture of health and do my housework with ease. I just feel delighted over the way Tanlac restored my health."

"Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold."

Prices Irregular On Curb

NEW YORK, Oct. 15.—Many stocks on the curb market today showed a strong tone but the market was called on to stand moderate liquidation in some issues, making price movements irregular.

Park and Tifford was traded in greater volume than at any time since it was listed on the exchange, over 15,000 shares changing hands in the first half of the day, on an advance of three points to a new high of 29. The failure of predictions of a tobacco merger to be realized had an influence in causing small selling of British-American Tobacco, which sold at a moderate loss.

The motor stocks again moved with a narrow range. A fractional advance was made by Ford Motor of Canada, while Durant Motor after an early advance around 2 1/2, the documents apparently being absorbed at that level. DuPont was traded in slightly higher range. Magnolia, on the opening transaction, dropped three points.

Standard Oil of New York also gained a point. International Petroleum was fractionally higher on a moderate volume of business and a fractional gain was made in Humble Oil. Vacuum Oil held firm at a slightly higher range. Magnolia, on the opening transaction, dropped three points.

Independent oil stocks were irregular. Royal Canadian held firm while Mutual Oil was in better supply on a fairly large scale. Oil companies as a whole were generally quiet.

Standard Oil of New York also gained a point. International Petroleum was fractionally higher on a moderate volume of business and a fractional gain was made in Humble Oil. Vacuum Oil held firm at a slightly higher range. Magnolia, on the opening transaction, dropped three points.

Grain Prices Forced Down

CHICAGO, Oct. 15.—With less support for prices than has been the rule of late, the wheat market showed a downward tendency today during the early dealings. Notice of Canadian wheat arriving in Minneapolis counted as a bearish factor. Weakness of corn also was a depressing influence on wheat values. The opening wheat varied from unchanged figures to 1/4 to 1/2 lower with December 10 to 10 1/2 and May 11 1/2 to 11 3/4 was followed by a moderate setback all around.

Favorable weather and progress of husking made the corn market decline. After opening unchanged to 1/4 lower, December 5 1/2 to 5 3/4, prices under went a general advance.

The close was unsettled 1/4 to 1/2 to 3/4 net lower with Dec. 1.05 to 1.05 1/2, 1.05 1/2 to 1.12 1/2 to 1.12 3/4.

Qals were easier with corn starting unchanged to 1/4 off, December 13 to 13 1/4, and later showing a slight further softness of hog values helped to sustain the provision market.

The close was unsettled at the same as Saturday's finish to a half cent higher, Dec. 70 1/2 to 70 3/4.

Boy Killed; Arrest Made

The Huntington Herald-Dispatch says: Homer Pyles, 10-year-old son of Fred Pyles, Fourteenth street and Jefferson avenue, was crushed between two state road commission trucks yesterday afternoon as a Chandler automobile alleged by authorities to have been driven by J. D. Burns, of Charleston, struck the rear truck and caused it to ram the front one, on the Barlowville road, near the International Nickel plant.

Mr. Burns, a Charleston automobile dealer, reported shortly after the

accident to Magistrate A. A. Shy, and was bound over to the grand jury on the charge of involuntary manslaughter. He was released from custody on a \$5,000 bond.

Witnesses of the accident told authorities last night that the boy was sitting on the front of the rear truck, and when it started rolling, fell off, being caught and crushed between the truck he was on and the one in front.

The boy's chest was crushed and a broken rib penetrated the heart, physicians reported. Death was almost instantaneous, it was said.

What a little paint will do!

THINK what a little Certain-teed paint will do on the farm! For a house like this the paint will come to less than \$25; for a big barn less than \$18.

Only 1 1/4 gallons are needed for the garage and 1 1/2 quarts for the car. Where can you lay out a few dollars that will bring in half the return? Good paint adds many years to the life of expensive implements; it protects your fine barns from the weather; and it brightens up the outside and makes you proud of your home. By good paint we mean Certain-teed. It spreads more easily, covers more surface, and wears longer than ordinary paint.

WE find that Certain-teed paint gives you more for your money. When you put Certain-teed paint on your house we know that we will do more paint business in your neighborhood.

Adams at fullback proved to be the big ground gainer at Portsmouth, although Chabon and DeVoss kicked in with substantial gains. The visitors had a strong fighting spirit, but before the game was over several of them were out with injuries. The Seagraves line held the local line plunges a number of times, but the visitors could not gain on the locals, who proved a better team backfield.

Many Freshmen Candidates At O. S. U.

COLUMBUS, Ohio, October 15.—(By the Associated Press.)—The problem of deciding what to do with 288 candidates trying for positions on one football team is confronting athletic officials at Ohio State University.

This number of ambitious youngsters reported to Assistant Athletic Director George M. Trantman, when he issued the call for freshman practice shortly after school opened.

Enough men to form 20 or more complete teams were available, but Trantman had uniforms and equipment for only about half that number.

Since the school has no athletic receive equipment were told to report daily in old clothes. And strange to say their enthusiasm un-

ALWAYS TWO SIDES

HENRY FORD made a bitter verbal attack, last week, upon Secretary of War Weeks, holding him personally responsible for a sale of a part of the Mussel Shoals plant and site, asserting in much bitterness that Weeks was influenced to do this by interests adverse to creating a fertilizer industry there by Ford himself.

Because of his financial prominence and his own professions the country has come to believe that Ford desires Mussel Shoals for establishing there an enterprise of vast benefit to agriculture. There is no call to question his sincerity therein but his appraisal of Secretary Weeks is another matter.

The official may be quite as sincere himself in not agreeing in all things with Mr. Ford and when it comes to the direct point of the sale, over which Mr. Ford goes into such high dudgeon, he appears to have all the better of the difference between the two. His explanation of the sale of the Gorgas plant is entirely satisfactory, accepting his statement of facts as true, and it is scarce possible he would make false statement of facts visible to the naked eye. In far better temper than that shown by Mr. Ford, he states the property known as the Gorgas plant, over the sale of which the latter becomes so indignant, is not a part at all of the Mussel Shoals system. It is not located on the same stream, it being on the Warrior river, while Mussel Shoals is on the Tennessee. Furthermore, the Gorgas plant is not on government lands, but upon a tract belonging to the Tennessee Light and Power Company, which, under the terms of a lease, had notified the government to remove the plant. It was because of this condition that it was sold.

We have no brief to defend Secretary Weeks, considering him either personally or officially, we have no predisposition in his favor, but we must say if he can substantiate his allegations of facts, he has altogether the advantage of the renowned automobile producer, so far.

BUT IT WON'T JUMP

THERE is a suspicion that David Lloyd George has "let the cat out of the bag" in his startling proposal that the United States and England form an alliance. His smoke screen that such an alliance be formed for the purpose of preserving the peace will deceive no one. Essentially it is offensive, it would be an irritation to every nation and so a provocation to war, instead of peace. It would inevitably lead all the rest of the world to an alliance of common sympathy if not of armed hostility towards these two countries. So it would be a hundred times worse than all its enemies have said about the league of nations setting up "a super government." It is most singular too to see league opponents giving instant and unreserved approval to the Lloyd George proposal. 'Tis so spontaneous and unanimous, indeed, this proposal that it convinces it was something to be sprung all the time. But it will not jump very far, a presidential election is at hand and soon the party bosses will be putting the muffler on and we will hear a detonation only here and there, after the White House sends out the cue. Cautious Cal isn't going to be caught that way, never fear.

Marks are about gone down to the limit of our mathematical attainments. They are now quoted at two billion for a dollar.

The world survives another crucial test. It was at that, according to the Enquirer, when Cincinnati met Denison on the gridiron. Cincy got beautifully licked, but the old mendane sphere is hurtling along at the same dizzy gait.

Figures prove nothing. When they come from the agricultural department. Last week the said department estimated the yield of wheat at less than 800,000,000 bushels and corn at over \$3,000,000,000 but nobody can say why the two recalls are going at the same price on the Chicago market.

They are paying 700,000 marks for a glass of beer in Berlin. That's nothing; we know fellows in this town that would pay 7 times that, if the amber fluid could be lifted under their noses.

New York=Day=By=Day

BY O. O. McINTYRE

NEW YORK, Oct. 15—A page from the diary of a modern Samuel Pepys: Up and out, wearing my noble gray hat, and talked with John Farrer, the young editor of the Lookman, and then to a hot waffle breakfast at Monquins.

In the afternoon to the church to attend the services for K. Kitchener's wife, Dorothy, and all very sad. Note home with W. J. Johnston and he autographed a copy of his new book, "The Washington Chapter" and called me his true friend, which I deeply treasure.

To dinner with my wife on Park Avenue and came Marcelle Carroll, Earl's wife, and Louise Groody, the play actress, and Marcelle, whom I love very much, fashioned the dinner of boiled eggs and a Paris salad of hers, some roasted bread and a kind of near beer, all very merry.

Afterward to the play and in the box near my stall sat Sam Bernart, the comedian, who seemed supercilious toward the antics of a low Dutch comedian, albeit I thought him far better than Bernard. So afterward for a vanilla delish and to bed.

There is a little Mexican friole stand near the Metropolitan opera that is a rendezvous for Mexican musicians who work in New York. Nearly every theatre has a Mexican in the orchestra. The shop, by the way, is named for Pancho Villa and is called Pancho's Cafe. Nearby is another retreat of Mexican refugees. This is Joel's, where Carlo Fornaro, the artist, makes his appearance at nine in the evening and once at nine in the evening and reason the sun shine for 15 years. Other poets and artists of the town flock there after midnight. Joel, whose last name is Rinaldo—writes weighty tomes chiefly for his friends. His last book was called "The Polygenic Theory"—and those, and I was one who didn't who understood what it was all about said it was simply elegant.

About the liveliest place in New York around mid-day is the Stock Exchange building. There is constant flow of messengers out of revolving doors. Harried men may be seen racing up and down inside. There is the line of a thousand telegraph and ticker instruments. Now and then the sharp clang of the pit gong. Along the curb, as a contrast, are the stolid, dull-witted apple and pretzel women who sell to messengers. Delivery clerks speed up on roller skates and there are men carrying ponderous bags. I looked all about by guards armed with blue steel pistols. The whole world about the Stock Exchange seems to be darting hither and thither in an aimless activity.

"Oh, then, we'll tak a walk," said Sandy, as he led her away.

Samuel Gompers' favorite labor story is of Joe Gillingovich. Joe was lustily engaged smoking and watching a large building operation when the boss came up to him and said: "Want a job?"

Joe smiled. "I can only work in the mornings."

"Why can't you work afternoons?" suspiciously demanded the boss. "In the afternoons," Joe unobtrusively explained, "I have to carry a banner in the unemployed parade."

And Then He Gave Up Trying To Get Her To Take Up Golf — By Briggs

Wonder Why
At dusk a suburbanite headed sleepily across lots to the next mode, called out the occupant and said: "Mr. Wombat, I want to return your lawn mower."
Wombat declined to take it, whereupon the other man was much perturbed.
"I know I have kept it a long time," he murmured, "pardon me and let me return it."
To which Wombat responded: "I must be honest with you. I had only one lawn mower and neighbors have already returned six."

"I have generally found that short words are the best to use."
"Just so," said the hempecked husband, "and this words—the kind you can get in edgewood."

What, at midnight?
Mrs. Wombat listened again and then charged her report.
"No, it's an amateur singer who claims to have no bananas."

Correct!
Teacher: "Can any boy tell me what comes in like a lion and goes out like a lamb?"
Billy: "Please, sir, I know."
Teacher: "Well, Billy, what is it?"
Billy (triumphantly): "The landlord, when father pays the rent."

ROAD LAW

(By Berton Braley)

DRIVE A Ford or a Packard Six,
Dixie-Reyes, Paige or a Cadillac,
It matters not on which you fix
Your buying eye when you pay your
jack;

The fact remains, when you hit the
track;
With Touring Model, Sedan, Coupe,
From here to Any Old Place and
back,
A Load of Stone has the Right of
Way.

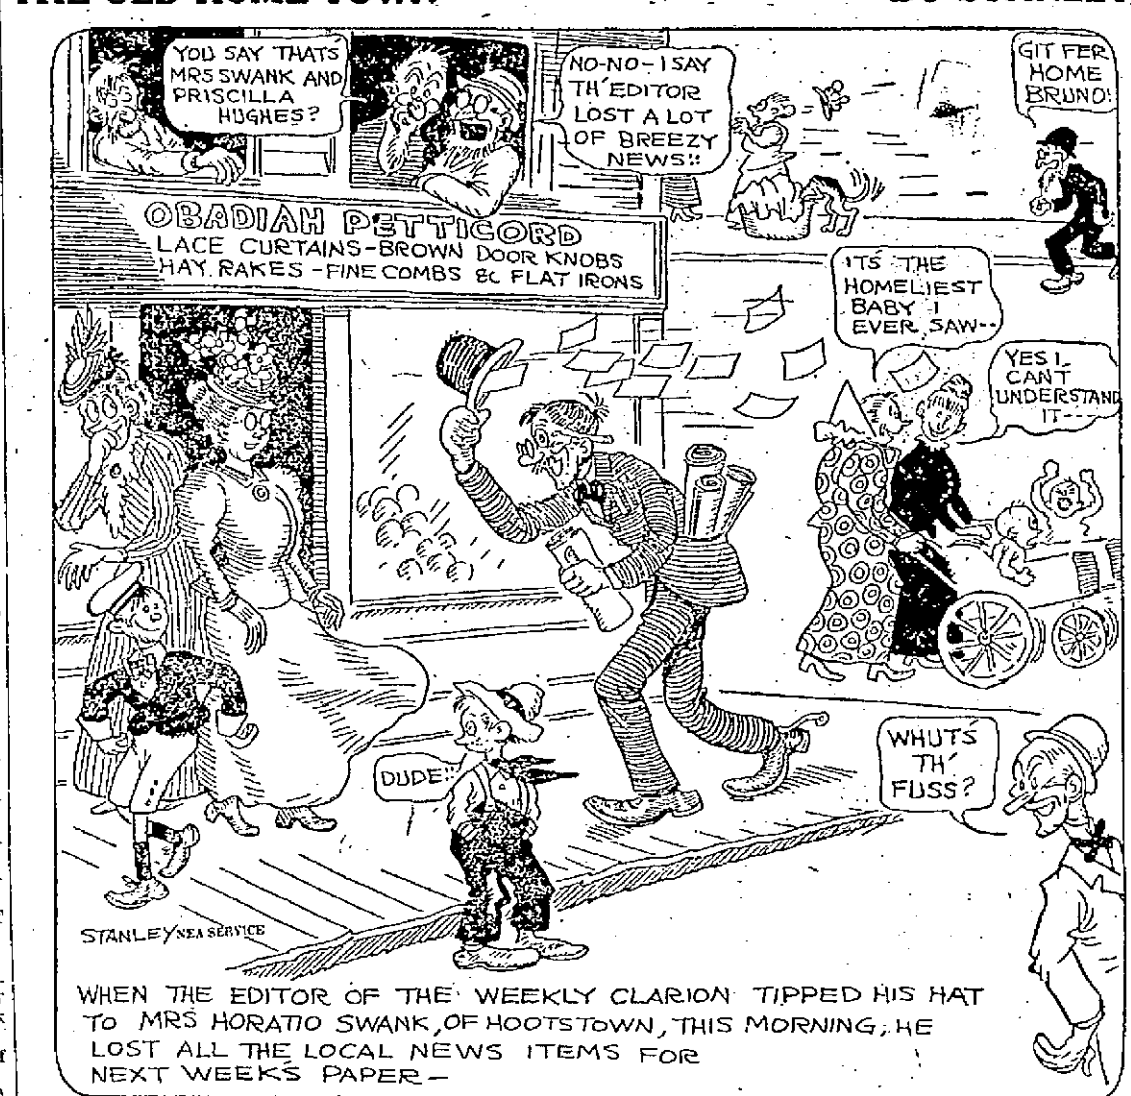

YOU may know all of the fancy
tricks,
You may be blessed with a special
license,
Of weaving out of a traffic mix,
But don't forget that an ugly
whack
Awaits the bird in a pleasure hack
Who gets too fresh with a loaded
drag,
He'll stand in the ruins and cry,
A Load of Stone has the Right of
Way.

IN the city or "out in the sticks,"
The laws are written in white and
black,
But regulations are simply nix
When a truck has a lot of stone to
pack.
Its backfire sounds like a bomb at-
tack,
And if with the driver you dare get
gay,
Your car'll resemble smashed bri-
c-a-brac,
A Load of Stone has the Right of

Envoys
Drivers, list to this wise, wise crack.
If you forget it you'll rue the day
And mean, while standing 'mid wreck
and wrack,
"A Load of Stone has the Right of
